LAWN MAINTENANCE TIPS

Watering Schedule:

Water three times per week, applying about 0.5 inches per session, for a total of 1.5 inches per week.

Best Time to Water:

Early morning or late evening helps reduce evaporation.

Smart Irrigation:

Have an irrigation specialist inspect your system. Adjust sprinkler heads, timers, and check for leaks. Make sure pop-ups, rotors, drip, and multi-stream systems are set for the correct zones.
